IMMIGRANTS AND DISEASE.

A Woman Punished.

On March 5 the Chinese junk Hin Sheng Lee arrived at Singapore with immigrants who were allowed to land before intimation was given to the Chinese Protectorate For this the Taikong (Captain) was prosecuted and fined \$125 Enquiries were then made for the passongers, as it became known that a girl had died on the voyage, and Chief Sanitary Inspector Mayhew at length found a Chinese girl about 12 years of age suffering with smallpox at No 405 Serangoon Road. A Chinese woman named Moh Ab See was with her. The girl was removed to the quarantine camp, and action was taken against the woman. On March 27 she was arraigned before Mr Peasock on the charge of removing a person suffering from small-pox, thus incurring the risk of spreading The woman brought two girls She has been a resident here for ten years, and was once before charged for not reporting a case of small-pox. The defendant pleaded ignorance of the girl's illness. Dr Glennio said the girl was: suffering from small-pox. He had heard ; that she had arrived from China on the 5th or 6th March. All the passengers that same ashere then had been accounted for except six. The defendant was brought to him on the 18th March, and with some difficulty she was induced to indicate the house where the child was. A Chinanem proved that the girl had been brought to No 405 Serangoon Road in a covered public ricksha by the defendant and left Mr Maybow asked for an employen al penaby. She was sentence. and a character imprisonment

THE VARN MARKET

In their formightly report, doubt 8th inst., Mororo Camarjan Pallanjen and C. write :-

Since the issue of our last circular dated the 25th olt., our Yarn Market during the first part of the fortnight ruled woody, and business was done at last Mail's quotations or at a triffe better. Latterly the continued drop in the rate of Exchange made importers tirmer, who asked for higher rates; but the Chinese dealers showed no inclinato operate at an advance, hence no business was reported in the last week. The Chinese annual ancestral Temb Worship ping holidays, which began on the bill ; and which will continue for nearly | a month, took a lot of Chinese dealers, to their native villages, which also accounts for the slackness of demand during the last part of the fortnight. A moderate business is reported in No. 20s. and 16s.; and are not such inquired for. As usual the demand ran on Nos. 12s and 10s.; Nos. 6s. and 8s. remain neglected. The market closes steady. Sales during the past fortnight comprise of about 75 bales of No. 6s.; 1,150 bales of No. 10s.; 475 ; bales of No. 15s.; 75 bales of No. 16s.; and 125 bales of No. 28s.; in all about 1,900 | bales. Arrivals during the fortnight per ; Bengal, Lightning, Hangsung, Capri and Malta of about 17,000 bales. Shipments to Shanghai and the Northern i Ports about 5,000 bales. The unsuld p stock is estimated at about 40,000 bales.

Local Yarn :-No business is reported. Japanese Yarn : Sales of about 175 bales of No. 16s, at \$128 are reported. Exchange :-- Another heavy drop is ;

EDITORIAL COMMENT.

The financial return of THE COLONY'S the Colony for 1903 has FINANCE. been issued and shows

that the revenue totalled \$5,238,857.89, being \$305,562.88 above the estimates. This in itself is an excellent result, and when we turn to the expenditure we find that \$248,931.75 less than anticipated was paid out, the total expenditure being \$5,396,669.48. On the whole, the return shows that the expenditure was be Consul at Tamsui, Formosa, and w Goods per Benlawers undelivered after \$155,811.06 in excess of the revenue, leave shortly to take up his new appointnotwithstanding the fact that a saving | ment. of \$554,494.63 was made on the estimates. Miscellaneous Receipts, however, were \$89,288,00 below the estimate, and Rent of Government Property was \$40,666.99 short. On the expenditure side, we favourably. notice that the Public Works Extraordinary showed a saving of \$281,268.96, and of the Sanitary Department vote \$50,560.07 was unexpended. Public Works Recurrent exceeded the vote by \$48,079.98, and Miscellaneous Services required an additional \$32,923.63. Other items largely in excess of the vote were Military Expenditure, \$28,736, Post Office \$26,362.27, Pensions \$26,303.08 and Transport \$11,848.48. The Assets and Liabilities account shows a debit balance be the holders of the League championship Thanks. of \$62,711.46, which, however, does as well. not include \$121,268 arrears of revenue.

Leavitt's Troubadours. Leavitt's Troubadours open to-night at the City Hall. From the nature of the programme to be submitted it is evident that a splendid night's entertainment will be given. The performance of the Zancigs alone is one that is worth seeing, and their exhibition of thought-reading is said to be little short of marvellous. Nothing is so interesting as that which appertains to the mysterious, and in the Zancigs sceptics will find food for thought. Private sittings are also given by the Zancigs at the Waverley Hotel. The singing and dancing of the Troubadours has gained great praise in India and the Straits.

The Speed of Steamers. The influence of wind on the speed of steamers has been found to be of considerably more importance than is generally supposed. A German scientific man, Herr Dinklage, has made a series of observations on two of the North German Lloyd steamers of about five thousand tons and fifteen or sixteen knots. The results sho that when the wind was favourable no difference whatever could be detected in the speed of the vessels during a light breeze or a heavy gale. But with a beam (crossthree to five knots and a half was produced.

Steamer 'Fawan' Arrested.

SHANGHAI, April 7. The U.S. gunboat Helena arrived here yesterday from Newchwang. She left Newchwang on the morning of the 3rd instant after a stay there of five months, and those on board say that they have had a very good time during their sojourn there. Everything was quiet in Newchwang when the Helena left and there were seventeen vessels in port. H.M.S. Espitgle was to come out of dock on the following day, and would probably also take her departure, it being thought best by the commanders of the two men-of-war to have and let the Russians and Japanese fight out their struggle for supremacy. All women and children had been advised to leave, and railway officials were ready to deputt at very short notice. up, and the Russian General in command of the forces south of Moukden, who was in Newchwang, was of the same opinion. News from Peking, however, was to the effect that the Japanese were not at all likely to make an attack upon New-

chwang for some time yet. Martial law was proclaimed, but the British and U.S. Consuls refused to accept the mandate until they had communicated with their respective governments. The houses of certain officials of the Imperial Chinese Railways were searched, including that of Mr A. G. Cox, and the traffic manager and two district engineers were placed under arrest.

The str. Fawan, which had been chartered from the Taku Tug and Lighter Company by Mr Washburn, of the Chicago Daily News, arrived at Newchwang with war correspondents on board, and two Japanese servants. On account of the presence of the Japanese on board, the vessel was seized and those on hoard placed under arrest. The two Japanese were imprisoned, but the war correspondents released upon Mr. H. B. Miller, U.S. Consul, guaranteeing them. An attempt was made in Shanghai to insure

the Farous against war risks, but the rates here were too high for acceptance.

Under martial law, all those at present resident in Newchwang are confined to the limits of the town, and it is expected the boundaries will shortly be considerably decreased. As is the case at war correspondents are practically abut up, with no chance of accompanying the troops to the front. War correspondents on the Russian side are evidently suffering similar restrictions to those who intended to accompany the Japanese army. The harbour of Newchwang is entirely without guides to navigation, the lightship having been removed, but with a pilot on board the Helena had no difficulty in leaving

The telegraph office at Newchwang was open for the use of all and sundry, but it was thought that certain restrictions would shortly be imposed. Money was extremely scarce in Newchwang, and when the order was issued that all vessels leaving with cargo must deposit with the Russo-Chinese Bank an amount equal to: the value of the cargo, the difficulty arose that the scarcity of money made such a course impossible. Then it was announced that drafts on Shanghai would be accepted but the order was eventually minimised to the requirement of a guarantee that any such vessel leaving the port with cargo would not discharge her cargo at any

Last, but not least, there is no truth in the rumour, current here some weeks ago, that the Helena had been damaged by the blowing up of a Russian gunboat at Newchwang. No such thing occurred and the Helena is now in just as whole and good condition as when she left here last year. -N.-O. Daily News.

There is no difference in principle between the Chamberlain party, who wish to go the whole way towards preferential tariffs, and the official Balfour section, which wishes to go halfway, by securing the power of retaliation, at present, and postponing the full programme till public opinion can be educated out of the delusion that its food will cost lit more. (From Our Own Correspondent.) SWATOW, April 5. STRAY JAPANESE BONZES.

Some stray Buddhist bonzes from Japan are dispersed here and there in the cities around Swatow (one has even made bold enough to install himself within the port itself), seeking to obtain adherents to their cult, and, incidentally, a few dollars. China Commercial Company being money fact, the 'Mexican' would seem to play almost the principal rôle in this new scheme. They promise to all adherents perfect immunity from the local officials and the settlement to their entire satisfaction of all law suits, etc. The ordinary method of procedure is to secure a native freely gifted with the 'Blarney' to act as interpreter. The people are then acquainted with the importance of joining the new concern, and to put their sincerity to a practical test an entrance fee, so to say, of \$3 is exacted of those whose names are en-

DAILY PRESS' OF HONGKONG ON THE 'UP-TO-DATE' SHORTHAND.

TN View of the Correspondence which L has arisen over the merits of various systems of Shorthand Writing, it is not without interest to see in what sort of headquarters the exponents of the 'Up-to-Date' system are quartered in Hongkong. A visit to Mr WARWICK PEELE'S STUDIO in QUEEN'S ROAD CENTRAL will repay the trouble. The Premises are large and siry, the more or less noisy Typewriting and the Shorthand Studios being wellapart. Tables are covered with Green Baize Cloth, not at all trying to the eyes. Mr PEELE has invented clever, though rather curiouslooking double chairs, especially adapted for

use when imparting Shorthand instruction. At present he is training a staff of teachers. three of whom are ladies. When these are thoroughly versed in the respective branches of teaching for which they are intended, Mr PEELE says that he will open Branches at Canton, Shanghailand Yokohama. At present his teachers have only been under training for a fortnight, whilst six weeks altogether will be necessary. One, a lady after 9 days study. accomplished 40 words a minute, after 11 days 60 words; after 21 days 80 words; and she is now in the 120 words a minute speed-lesson. It is claimed that 'Up-todate' Shorthand is easy to transcribe.

Where are no lines, arbitrary signs, grammalogues, or obtuse angles nor any halving 690 Principal. The full course consists of 21 Jessons, Type-writing is taught by the blind touch system, new machines of the best make being supplied for practice. Other subjects include Book-keeping, Arithmetic, Languages, Memory-training, and Businesses Department.

THERAPION NO. 1
in a remarkably short time, often a few days only,
removes all discharges from the urinary organs,
superseding injections, the use of which does irreparable harm by laying the foundation of stricture
and other serious diseases.

THERAPION No. 2
for impurity of the blood, scurry, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired ritality, sleepless-ness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, error, excess, residence in hot, unhealthy climates, ac. It possesses surprising power in testoring strength and vigour to the debilitated.

THERAPION is sold by all Chemists and Merchants throughout the World. Price in England 2/2 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word. Therefore, as it appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hou. Commissioners, and without which it is a forgery.
